

**HG stain away for coffee, tea, ketchup, fruit, red wine and ink stains etc.**

**Directions for use:** Test a small inconspicuous part of the material beforehand to check that it is colourfast. Dissolve the contents of the bottle in one litre of hot water (note the washing instructions for the garment). Immerse the stain and allow it to work in for about 30 minutes. For stubborn stains dilute the solution further to 4 litres. Fully immerse the article of clothing and allow the solution to work on the stain for several hours. Then rinse out well in hot water. Repeat the treatment if necessary. **Transport and store the bottle upright.** • Medical personnel can request the data sheet via +31 (0)36 54 94 777 • The consumer's information sheet can be obtained via [www.HG.eu](http://www.HG.eu)

**QUESTIONS ABOUT CLEANING AND MAINTENANCE?**

[www.HG.eu](http://www.HG.eu)

contains a.o.:	
oxygen-based bleaching agents	> 30%
phosphates	5-15%
optical brighteners
