HG stain away 5

for a.o. chewing gum, make-up and grass

This product is also suitable for stains caused by mascara, water-based paint, soil, clay and building sand.

Directions for use: Test a small inconspicuous part of the material beforehand to check that it is colour-fast. Remove as much of the stain as possible beforehand. Allow the product to work in for 10-15 minutes in a bowl containing the product. Then rub cloth to cloth and rinse off well with hot water. If necessary repeat the procedure and allow to work in for longer, but do not allow the liquid to dry. Place small stains on an absorbent white surface, e.g. a white tissue, and dab up with a cloth dampened with the product. Then rinse off well with hot water.

Transport and store the bottle upright
