FLOORS

lamininate cleaner

cleans quickly and easily

PRODUCT 71

500 ml e

HG laminate cleaner (product 71)

- cleans quickly and easily

HG laminate cleaner removes light amounts of dirt from all types of laminate floors in no time. With *HG laminate cleaner*, you can quickly and easily keep your laminate floor clean.

Directions for use: Turn the nozzle on the front side a quarter. Clean the laminate floor with *HG laminate cleaner* using a floor cloth. Slightly dampen the floor cloth with *HG laminate cleaner*. To clean the laminate floor please spray *HG laminate cleaner* 2-4 times on a clean cloth or mop. In any case, ensuring that the floor cloth does not become too damp. Then lightly rub/mop the laminate floor. You should not make the floor wet with the floor cloth. The cloth should be just damp enough to pick up all the dust and dirt. For that reason, it is also not necessary to dry the floor. In the case of stubborn stains, spray directly on to the stain and leave to work in for a while. Turn the nozzle a quarter after use (OFF). For weekly cleaning, use *HG laminate cleaner shine restorer* (product 73). Carefully follow the instructions to prevent the laminate from becoming too wet. Wet cleaning may cause swelling of the seams of the laminate.
