## HG liquid antique wax

Is a high-quality wax based on bees wax and natural Carnauba wax. It gives antique furniture natural nourishment thus preventing drying out. This thin fluid wax is easy to apply, and leaves a high gloss and a hard dirt-repellent film.

**Direction for use:** Transport and store the bottle upright. Shake well before use. Rub lightly into the wood with a soft cloth or brush. Allow 15 minutes for it to work in and then rub off with a brush or cloth until a

deep gloss forms. Available in two colours: **Brown** for darkening the colour of the wood and **Yellow**, for lighter coloured wood and for waxing antique wood without darkening.
