

HG parquet cleaner extra strong (product 55)

- 100% safe for the varnish layer
- removes stubborn dirt and grease

HG parquet cleaner extra strong has been specially developed for the fast and easy removal of stubborn dirt and grease from varnished parquet floors. It is also suitable for the removal of polish and other protective films, such as *HG parquet protector (product 51)*. This product is absolutely safe for the varnish layer.

Directions:

For normal powerful cleaning:

Dissolve 1 litre in half a bucket (5L) of lukewarm water and apply with a floor cloth or mop. Leave to work for approximately 5 minutes. If necessary scrub the surface carefully with a soft scrubbing brush or a stiff broom. Then remove the solution from the surface with a floor cloth or mop, regularly rinsing and wringing it out in water. (A water extractor can be used if required.) After that, thoroughly mop the floor again with clean water. Repeat the treatment if necessary.

To remove stubborn dirt or old polish and other protective films: Use this product undiluted. Follow the steps described above.

Coverage: ± 10-15 m² per litre undiluted, ± 25-50 m² per litre diluted.

Attention: For veneered parquet, laminate parquet, click parquet and other not fully varnished parquet floors, use *HG laminate cleaner extra strong (product 74)*.
